

Gigabit Business IP Phone

ZIP 47GE

Quick Start Guide

Packaging Contents

The following items are included in your package. If you find anything missing, contact your system administrator.

IP Phone

Handset

Handset Cord

Ethernet Cable

Stand

Quick Start Guide

Power Adapter
(Optional)

Wall Mount Bracket
(Optional)

Note: We recommend that you use the accessories provided or approved by ZULTYS. The use of unapproved third-party accessories may result in reduced performance or damage.

Assembling the Phone

1. Attach the stand, as shown below:

Note: The phone may also be wall mounted using the optional ZIP 47GE wall mount bracket. Refer to wall mount installation guide for additional information.

2. Connect the handset and optional wired headset, as shown below:

Note: Optional headset may be purchased separately.

3. Connect optional USB device if supplied:

Note: Optional USB devices include the ZIP 450M Expansion Module, USB headset and the EHS4x Electronic Hook Switch adapter for wireless headsets. Refer to the related manuals for additional information.

4. Connect the network and power, as detailed below:

a) **Wired Network:** There are two options for wired network and power connections. Your system administrator will advise you which one to use.

b) **Wireless Network:** Connect the Power Adapter as per 'AC Power Option' above.

- 1) Once the phone reaches the idle screen select **Menu > Basic > Wi-Fi**.
- 2) Press the **Switch** button to turn **Wi-Fi On** then press **Save**. The phone will search for available networks.
- 3) Scroll down to **Available Networks** and press **Enter** or **OK**.
- 4) Select the appropriate network as advised by your system administrator.
- 5) Enter the network password in the **Password** field then press **Connect**.

Startup

After the IP phone is connected to the network and supplied with power, it automatically begins a process of initializing on the network and downloading its configuration information. Contact your system administrator if the phone fails to register with the IP phone system.

Basic Call Features

Placing a Call

Using the handset:

1. Pick up the handset.
 2. Enter the number, and then press the **Call** soft key or .
- Alternatively-- Enter the number and then lift the handset to initiate the call.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the bottom of this equipment is a label that contains, among other information, a product identifier in the format US: ZULIPNANZ47GE. If requested, this number must be provided to the telephone company.

IC Statement

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- (1) this device may not cause interference; and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device. CAN ICES-3(B)

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le

Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.

About Zultys

Zultys is the global provider of a true all-in-one unified communications solution. Innovative, reliable and scalable, Zultys IP phone systems integrate voice, video, data and mobility in a single premise based appliance or in the cloud - to optimize collaboration for businesses of all sizes.

Zultys delivers a powerful, feature-rich communications system that is easy-to-use, deploy and maintain. Zultys is headquartered in Silicon Valley with offices around the world.
